

# Mark-Tech International LLC

## **Mark-Tech International**

Connecting companies, products, and people around the world

### **Global partnerships for growth**

Mark-Tech International is a leader in providing global sales, export, and import services, with innovative solutions to empower your company to define and achieve global growth objectives. Since 2000, Mark-Tech International has enabled clients to grow their customer base, market share, revenue and profits.

With a global partnership of companies on five continents, Mark-Tech International brings broad-based industry experience and product expertise to your enterprise. Our decades of helping companies like yours achieve global sales goals means you can effectively navigate the many challenges inherent in a global strategy. Working with Mark-Tech will yield a clearly defined sales strategy with insightful market intelligence for your desired locales, with the key relationships and sales channels in place to help you deliver on your strategy.

### **What we do**

Mark-Tech International provides a comprehensive sales service experience. Samples of some of our services we can provide when you engage with us include:

- Destination market analysis including market pricing and competition
- Marketing and sales plan development for market segment/industry, region, or global markets
- Regional and global sales channels establishment – agents, sales representative firms, distributors, your own sales force
- Overseas sourcing
- Overseas certification process like CE, C-tick, CCC and other regulations that impact the US exporters ability to export their products to a specific country or region.
- US government export grants application process assistance
- ExIm bank small-business credit financing programs for US manufacturers

- Risk analysis
  - Credit and payment
  - Foreign Corrupt Practices Act
  - Destination import controls, duties, and taxes
  - US export controls - ITAR
- Full- and part-time assignments, project work availability
